## IN BRIEF

---

I am looking for a job about Front-end development. I have experience building SPA WebApp using Angular as creating complex ux / ui components, forms handling , authentication and authorization handling, and other tasks for work.

## EDUCATION AND CERTIFICATE

---

2014 - 2018	<b>Banking University of Ho Chi Minh City</b> Major: Banking
-------------	---

2019	<b>CyberSoft</b> Nodejs Fullstack Developer Certification
------	--

## WORK EXPERIENCE

---

FEB 2020 - Present	<b>Softworld Vietnam</b> Frontend Developer I got the job officially and the tasks moved to Angular 2+. Initially, my main job was still doing UI / UX tasks to build dummies components using angular. Project is a real estate auction site. Gradually, I was assigned tasks that perform logic like form, authentication and authorization behavior, build shared components, directive, pipe, google map api, ... During my work, I have experience with Typescript, Angular(8), RxJS, SCSS ...
--------------------	---

JAN 2020 - FEB 2020	<b>Softworld Vietnam</b> Frontend Developer I have worked at SoftWorld company as Fresher Frontend, my main tasks are implement. My main tasks are to implement UI from Figma to Wordpress for a client which is a big resort in Dalat.
---------------------	---
